

Spring 2017 Key

1. After
2. Slices
3. NOT COVERED (Deep)
4. Immutable
5. Immutable
6. Iterating
7. Dictionary
8. End
9. Try Implementing
10. Try Implementing
11. Try Implementing (We have not covered `ord(char)`, however it takes in a character and returns a number representation)
12. Try Implementing (Does it matter what the user inputs?)
13. Try Implementing
14. Try Implementing
15. Try Implementing
16. Try Implementing
17. Try Implementing
18. Try Implementing
19. Dictionary
20. The For Loop combined with `pop()` will skip elements
21. All of the above are legal dictionary values
22. Try implementing
23. Try implementing
24. Try Implementing
